**SIEMPRE INDICA NOMBRE, APELLIDO, CURSO Y ESCUELA**

*Recuerden que pueden consultar sus dudas en el grupo de whatsapp o por mensaje privado.*

## **Trabajo n°14**

- 1) Look at the photos 1-5. They are all examples of recycling. What are they? And what do you think they are made of?

## 2) Read the text

# Recycle now!

People didn't use to throw things away. We used to mend our clothes and we used to wear shoes until they wore out. And we didn't use to buy so much in the first place.

But now we consume more and so we produce more rubbish. The UK used to be one of the worst recyclers in Europe, but the Recycle Now campaign has made a big difference. It has an annual Recycle Week and has made TV commercials showing the recycling of metal cans, glass bottles and paper into interesting new everyday items. One ad showed a town with cars, trains, buildings and even planes made of metal cans. Now the UK recycles around 3.5 billion cans a year, almost twice as many as 10 years ago. And supermarkets have reduced their use of plastic bags by nearly 50% in the last five years.

Top UK designer Oliver Heath is a strong supporter of the campaign – he designed the first home constructed entirely from recycled materials, including yoghurt pots and glass bottles. And he is excited by the imaginative recycling of waste. 'There's an awful lot of exciting design stuff out there. I like all the new uses for ordinary products – glass bottles turned into bricks, rubber car tyres into pencil cases and carpets, plastic cups into pencils.' You can also buy pens made from recycled computer printers, T-shirts made from plastic bottles, and jewellery made from plastic bags.

So don't throw things away! All the items you recycle are valuable resources and can be made into something useful, even stylish and fun. In the USA they've made chairs from old books, plant pots from shoes and even a house from a jumbo jet. The possibilities are endless!

## 3) AFTER READING: Answer the questions.

Answer the questions.

- 1 Why did we use to buy fewer clothes?
- 2 Why did we use to buy fewer shoes?
- 3 Why do we produce more rubbish now?
- 4 Which kinds of rubbish are recycled in the TV ads?
- 5 What example shows that the UK is now recycling more?
- 6 What recycled materials did Oliver Heath use in the home he designed?

## 4) Now say: what did the items in the photos 1-5 (ex 1) use to be?

## 5) Answer: Do you recycle more now than you used to? What things do you recycle? What things do you use that are made from recycled materials?
